

Ontario Chapter Meeting Notice

Please post in your area

Date: Tuesday, October 5th, 2010

Time: 6:00 PM

Topic: Guest speaker Bill Tait (retired Manager of NDT Services, Dofasco) will discuss the history and evolution of NDT technology as it relates to:

- The evolution of radiography starting with the first isotope camera in 1952/3 to the availability and use of linear accelerators. Infra-red thermography equipment from the original missile tracking cameras to the current hand-held multi-purpose units in use today.
- Ultrasonic equipment starting with the first units available in Canada back in 1959.

Also to be discussed:

- The history and development of the Canadian Society for NDT (CSNDT) from its origins in the 1950's as the SNT to where it is today and the reasons for the major growth spurts in NDT.

Cost: Cost: \$25.00 for buffet meal. Preferred payment will be cash/cheque.

Location:

Mohawk College Residence & Conference Center
135 Fennell Avenue West, Hamilton, ON

Directions: <http://www.mohawkcollege.ca/Discover/maps/Residence.html>

Parking: Enter the Mohawk campus from Fennell Avenue. Parking lot P13 is the closest to the Student Residence building. Evening parking tickets may be purchased at the machine located near the kiosk.
