More Detail on Browsers

Browser Requirements

TalentLMS is compatible with all modern browsers including Firefox, Internet Explorer 9+, MS Edge, Chrome, Safari, and Opera. We have noticed a few minor issues in Internet Explorer.

The platform is also compatible with all browsers used by the latest mobile devices (i.e., iOS and Android).

Third Party Cookies

Your browser must accept third-party cookies, most do this by default, but if yours doesn't here's how to fix it...

Third-party cookies are placed into a user's browser by a website hosted on a domain other than the one they're currently visiting. Just like standard cookies, third-party cookies are used for multiple reasons (e.g., caching user settings and preferences, tracking information, etc.).

You must configure your browser to accept third-party cookies. Most browsers accept them by default. If your browser doesn't (i.e., Safari) or you've already disabled third-party cookies from your settings, you have to enable them immediately for SCORM content to load properly.

Here's how to enable third-party cookies in six popular browsers:

A. Mozilla Firefox

1. Click the **menu symbol** and choose **Options**.
2. Go to the **Privacy and Security** tab.
3. In the **History** section, choose **Use custom settings for history** from the **Firefox will** drop-down list.
4. In the **Cookies and Site Data** section, check **Accept cookies and site data from websites**.
5. From the **Accept third-party cookies and site data** drop-down list, choose **Always**.

B. Google Chrome

1. Click the **menu symbol** and choose **Settings**.
2. Scroll to the bottom of the page and click **Advanced**.
3. In the **Privacy and security** section, click **Content settings**.
4. Click **Cookies**.
5. Make sure the **Allow sites to save and read cookie data** switch is on.
6. Click the **Block third-party cookies** switch to turn it off.

C. Internet Explorer

1. Click the **gear symbol** and choose **Internet Options**.
2. Go to the **Privacy** tab.
3. Click **Advanced**.
4. On the **Advanced Privacy Settings** dialog box, check **Override automatic cookie handling**.
5. On the **First-party Cookies** section, check **Accept**.
6. On the **Third-party Cookies** section, check **Accept**.
7. Check **Always allow session cookies**.
8. Click **Ok**.
9. Click **Ok** again and restart the browser.

D. Microsoft Edge

1. Click the **menu symbol** and choose **Settings**.
2. In the **Advanced settings** section, click **View advanced settings**.
3. From the **Cookies** drop-down list, choose **Don't block cookies**.

E. Safari (Mac)

1. Click **Safari** and choose **Preferences**.
2. Go to the **Privacy** tab.
3. In the **Cookies and website data** section, uncheck **Block all cookies**.

Note: Also, make sure that **Prevent cross-site tracking** is unchecked.

F. Safari (iOS)

1. On your iPhone or iPad, click **Settings**.
2. On the left-hand panel, choose **Safari**.
3. In the **Privacy & Security** section, click **Block Cookies**.
4. On the **Cookies and website data** checklist, check **Always allow**.
